Background:

Professor Hugh came to the Xandorian Academy about thirty years ago. He was one of the brightest students and soon surpassed his teachers. The Judges appointed Hugh the head of the Xandorian Academy. Hugh doesn't believe the rumors of the Shiva Agenda even though the Science Guild has brought him proof time and again. Hugh's only concern is to continue the education of the youth of Xandoria. Because of this, the Judges keep him on. Hugh won't leave the academy, instead sending other professors out into the field to gather information.
